TITLE : METHOD FOR SCREENING BAKER'S YEAST

ABSTRACT : PURPOSE: To provide a method for screening cold storage and/or freezer storage-resistant yeast.

CONSTITUTION: This method for screening cold storage and/or freezer storage-resistant yeast comprises (a) a process for varying yeast, (b) a process for culturing the varied yeast in a saccharide analog-containing medium, (c) a process for selecting the yeast growing in the saccharide analog-containing medium at 10°C and (d) a process for screening the yeast having $\leq 10\text{ml}$ high saccharide dough fermentation power at 5°C, $\geq 350\text{ml}$ high saccharide dough fermentation power at 30°C and fermentation power at 30°C at return temperature of $\geq 80\%$ the high saccharide dough fermentation power at 30°C.
